Re: Grant #1966

Dear Dr. Shechter:

The Scientific Director and CTR's staff have discussed your letter of March 12 concerning the 8th Annual European Conference on Vascular Biology with the main theme "The Molecular Basis of Atherogenesis".

This is a topic of interest to the Council, and the tentative program includes discussion of subjects important to our mission. I therefore am pleased to tell you that we will make a contribution of \$2500.00 for support of the meeting. A check for that amount is enclosed with this letter. We request only that these funds not be used to pay for expenses incurred by participants from the industrial sector.

We hope that you will keep a registration slot open for a representative from CTR and that you will send us the final program when it becomes available.

Sincerely,

Harmon C. McAllister
